The Doctor's opportunities in hospital and private practice are unsurpassed in St. Louis or any other city. Back files of St. Louis papers prove that he has been located there longer by years than any other so advertising. The establishment, library, laboratory and appointments are unequalled in the West, unsurpassed anywhere. Age, with experience, can be relied upon, and the Doctor can refer to many physicians throughout the country. In past success and present position he stands without a competitor.

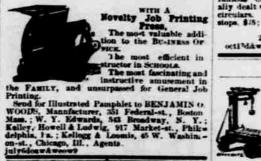

The Writings of a Physician whose reputation is Union-wide should be worth reading.

Dr. Whittier publishes a Medical Pamphiet relating to venereal diseases and the disastrous and varied consequences of self abuse, that will be sent to any address in a scaled envelope for two stangs. It contains full symptom lists that will enable those afficted to determine the nature of their complaints and give a written statement of their cases that will answer almost as well for the purpose of treatment as a personal interview, but where it is convenient the Doctor should be consulted personally.

ONE MILLION Of Lives Saved!

It is one of the remarkable facts of this remarkable age, not merely that so many persons are the victims of dyspepsia or indigestion, but its willing victims. Now, we would not be willing to say that any one regards dyspepsia with favor, or fosle disposed to rank it among the inxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it and would gially dispense with its unpleasant familiarities. Mark Tapley, who was jolly under all the trying circumstances in which he was pinced, never hear and the trying circumstances in which he was pinced, never hear and the trying circumstances in which he was pinced, never hear of of a person who enjoyed them?

Of all the multifarious discusses to which the human system is liable, there is, perhaps, no one as guerally prevalent as dyspepsia. There are discussed in the source depressing to the mind, and which more frequently prove fatal; but none the effects of which are to depressing to the mind and so positively discussing to the body. If there is a wretched being in the world it is

A Confirmed Dyspeptic. But it is not our intention to discant on the horture of dyspep-ia. To describe them truthfully is simply as impossibility, but it is possible to point out a remedy. We have said that "rapepaia is perbays the most universal of human disease. This is emphatically the case in the United States, whether this prevalence is due to the character of the food, the method of its preparation, or the husty manner in which it is usually scallowed, in not our province to explain. The great fact with which we are called to deal, is this

Dr. Hoofland's GERMAN BITTERS.

Would you know more of the merits of this won-derful medicine than can be learned from the expe-cience of others? Try it yoursels, and when it has failed to fulfill the assurance of its efficacy given by the proprietor, then abandon faith in it. Let it be Remembered

first of all, that HOOFLAND'S GERMAN BIT-TERS is not a rum beverage. They are not alcoholic in any sense of the term. They are composed wholly of the pure juice or vital principal of roots. This is not a mere assertion. The extracts from which they are compounded are prepared by our of the ablest of German chemists. Unlike any other Bitters in the market, they are wholly free from spirituous ingredients. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in the case of the German Bitters. So far from encouraging or inculcating a taste or desire for inchristing beverages, it may be confidently asserted that their tendency is in a diemetrically opposite direction. Their effects can be

bas been specially prepared. It is intended for use where a slight alcoholic stimulant is required in connection with the well-known tonic properties of the pure German Bitters. This tonic contains all the ingredients of the Bitters, but so flavored as to remove the extreme bitterness. This preparation is not only palatable, but combines in modified form, all the virtues of the German Bitters. The solid extracts of some of mature's choicest restoratives are held in solution by a spiritous agent of the purest quality. In cases of langur or excessive debility, where the system appears to have become exhausted of its energies, HOOFLAND'S TONIC
